

VRC-353

INTERCONNECTIONS

IT IS ESSENTIAL FOR THE SATISFACTORY OPERATION OF THIS INSTALLATION THAT THE CABLES ARE ROUTED EXACTLY AS DETAILED BELOW.

2.4 A block schematic diagram is given in fig. 8. All connections at the wing-mounted equipment should have been made as detailed in supplement 3. All other connections should be made as detailed below. Clips for securing the cables to the equipment rack are stowed in linen bags attached to the cable assemblies, power, electrical (5995-99-637-9887).

Cable assemblies

Ref	Description	NATO Stock No.	From	To
202	Cable assembly power electrical	5995-99-637-9887	Dist'n box	DMU
601	Cable assembly power electrical	5995-99-652-1803	RT-353	DMU

Note: Cable assemblies 101, 102, 103, 201, 1201 are detailed in supplement 3.

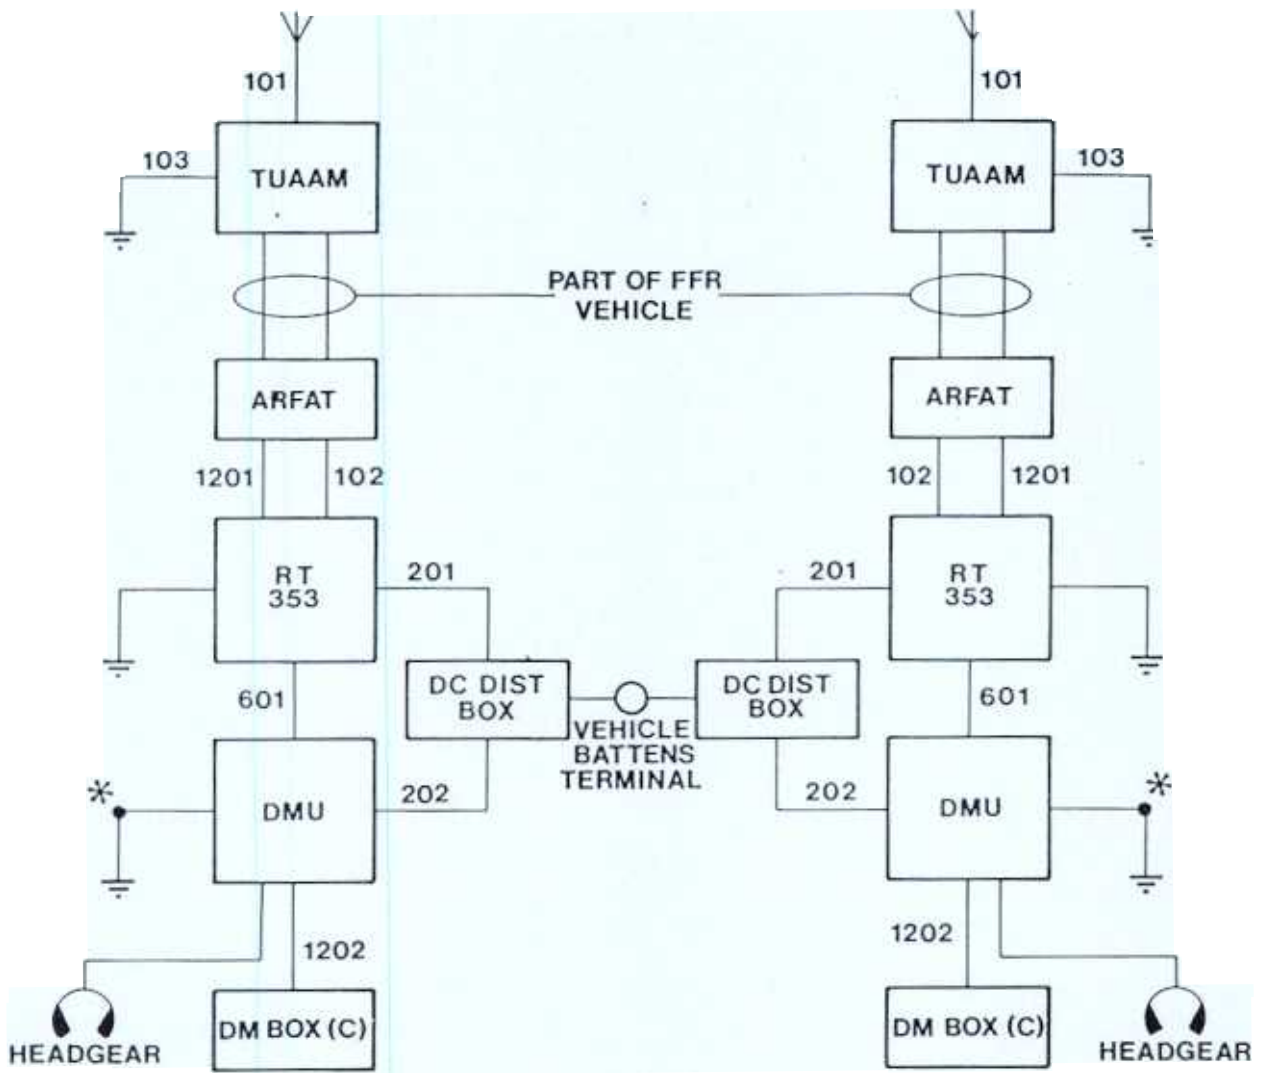

Fig. 8 Block schematic

Note...

When the distribution box is connected to the FFR 'RADIO' terminals the three outlet sockets are LIVE.
